

Changed Title!

Ian Breckheimer, Fri Jan 17:13:58 2014

This is an R Markdown document. Markdown is a simple formatting syntax for authoring web pages (click the *Help* toolbar button for more details on using R Markdown).

When you click the *Knit HTML* button a web page will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

You can also embed plots, for example:

Figure 1: This is a caption

Pretty tables are implemented with the xtable function:

```
% latex table generated in R 3.0.2 by xtable 1.7-1 package % Fri Jan 17 17:13:58 2014
```

It is also straightforward to include inline citations like this: (Abrams et al. 2012)

Inline equations are handled like this (LATEX format): $\frac{1}{n} \sum_{i=1}^n x_i$

You can also create display equations:

$$\frac{1}{n} \sum_{i=1}^n x_i$$

	Sepal.Length	Sepal.Width	Petal.Length	Petal.Width	Species
1	5.10	3.50	1.40	0.20	setosa
2	4.90	3.00	1.40	0.20	setosa
3	4.70	3.20	1.30	0.20	setosa
4	4.60	3.10	1.50	0.20	setosa
5	5.00	3.60	1.40	0.20	setosa
6	5.40	3.90	1.70	0.40	setosa

Table 1: Title of the table

And it is possible to include a bibliography at the end of the document:
